**President Donald J. Trump expresses his belief that the "Justice" Department placed a "Spy" in his Campaign**

**Matthew F. Hale *knows* the "Justice" Department placed a "Spy" with him, the same FBI (Robert Mueller) that is attempting to remove our President Trump from office**

Irrefutable evidence has caused President Donald J. Trump to state that the Obama Department of Justice through the Federal Bureau of Investigation placed a "spy" in his presidential campaign for nefarious—possibly even treasonous purposes.

This type of criminality by the FBI is not new. Matthew Frederick Hale *knows* that same tactic was used under then Director Robert Mueller to bring and sustain false criminal charges against him. That is, what the Deep State is trying to do to President Trump was done to Matthew Hale.

President Trump has begun efforts to mend America's broken "justice system," of which he and some of his administration were and are victims. He has already improved the standards of the judiciary and is addressing much needed prison reform, pardoning those unjustly convicted, commuting and reducing sentences and releasing those subjected to unjustly long prison terms.

The above-mentioned Matthew Hale has an action for Commutation of Sentence now pending. It needs only the President's signature to free him from the penalties of the same "frame" that Mueller and his minions are now attempting against Donald Trump. Meanwhile, Hale has suffered *in solitary confinement* for *fifteen years* of what is a *forty-year sentence!* But the only crime Matthew Hale committed was to become a "subject of interest" to Robert Mueller and Obama's Department of Justice!

Please contact President Donald Trump and ask that as part of his reform efforts that he grant Matthew Frederick Hale a commutation of his sentence. No greater act of justice *and* mercy is possible.
