Matt Hale,

Plaintiff

vs.

FEDERAL BUREAU OF PRISONS

C.A. No. 14:-cv-00245

AMICUS COMMENTARY TO FILED DOCUMENT 236

COMES NOW Russell F. Walker, a 75 year-old adult who has read document 236 via the Internet. Frankly I am astounded that the US Attorney would file such an outrageous document. Document 236 is more attuned to the middle ages rather than to the 21st century. Is the government so scared of an individual who is locked up in solitary confinement in the most allegedly secure facility in the United States. Well someone said that the "pen is mightier than the sword" and apparently Hale's must be so.

I am not an adherent, just an observer, of the Creativity religion. I really do not know what the religion entails.

Why does not the government just cut off Hale's fingers and cut out his tongue if he is so dangerous and prevent him from writing things

which are claimed to be dangerous to public order. Maybe the government should order a brain lobotomy so that Hale cannot even think of certain things or actions, now that would be justice at its best i.e. *ad eius optime justice* as Cicero would say.

I have sent letters to Hale in prison and some jackass clown censor who never has produced any wealth in his life has claimed that my comments were "gang related". I am 75 years old and a candidate for House District 48 in North Carolina. See my website walkerforhouse48.com and determine if you think I am a gang member or have the proclivity to be that way.

I don't care what Hale writes. I am not nor do I know of anyone who is going to commit any crime or conspire in any criminal activity due to Hale's writings or beliefs.

Frankly I would love to see what Hale has written that is so dangerous. Orwell and Kafka would not believe the surreal world that the US Attorney is supporting in 2018.

I just have to speak out and cannot remain quiet.

Pursuant to 28 U.S. Code § 1746 --

"I declare under penalty of perjury that the foregoing is true and correct.

Respectfully submitted,
