

# FREE MATT HALE!

## FreeMattHale.org

Matthew Hale is a political prisoner that was given a 40 year sentence for a crime he did not commit. He has been in solitary confinement for over 15 years in the worst prisons in our United States. Matthew was found guilty of soliciting the murder of a federal judge in Chicago in 2005. There was no evidence presented at his trial that he had committed any crime. The trial was a travesty and filled with prejudice against Matthew Hale.

We must speak out and demand the freedom of Matt while we still have the right to do so. To learn about a persecuted American Racial Loyalist, please visit:
